### Achieved Objective - In your opinion

■ yes ■ Mostly yes

### Organisation - How do you assess?

■ Excellent ■ Good ■ Fairly Good ■ Could be Improved ■ Poor

## **Compliments / Feedback**

I have really benefitted from your training. It's been a nice experience being at the training. May God richly bless you as you continue to help others.

- **Nandomah Solomon**

On behalf of Kandames Company limited and my own behalf wish to thank you all very much for the insightful lessons learned at the just ended Faecal Sludge and septage management workshop in Accra, Ghana.

The training has given me especially much knowledge on how to treat and manage Faecal matters and more so the basic design of septic tanks. This knowledge acquired, combine with the sale of cesspit emptier (which is our core business) shall assist our local clients immensely.

I hope our relationship with you and your organization shall further be strengthen in the near future in the Faecal sludge industry as a whole.

- **Kwame Antwi, Kandames Company limited**

Very good program, should be taken to other regions to enable more practitioners to get informed and trained

- **Ato Fanyin Martin**

Well organized, time was well managed
