Partnership

Partnership

Future Plan:

Establish and strengthen National Rainwater Alliance

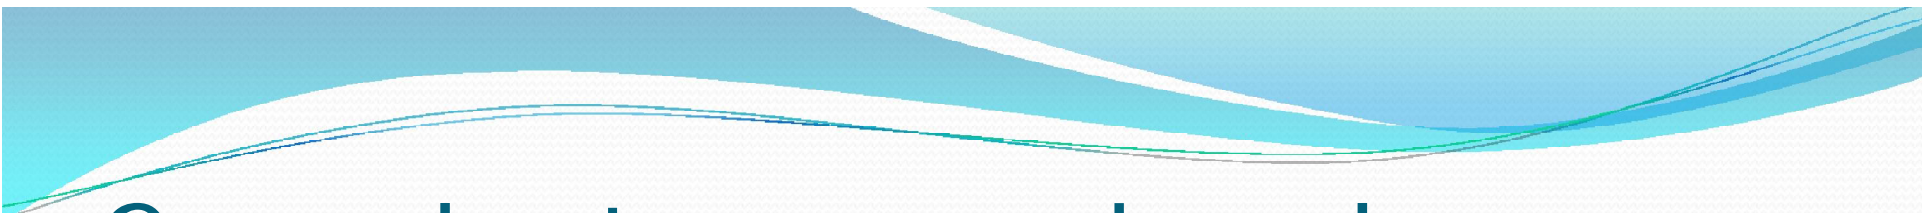

15 stakeholders (private, academics, I/NGO, GO)

- Policy inputs and influence
- Recently formed a task group to work on the national rainwater guidelines
- Draft a concept on rainwater incentive regulations for the Kathmandu Valley

Capacity building and knowledge network

- Training and exposure (in-country/abroad)
- selected youth members get opportunity to get trained at CSE India
- training workshops for technicians/bureaucrats/students/professionals
- publish do it yourself manual
- academic module for undergrad and grad courses in science and environment management studies
- School Children get involved in green school programs

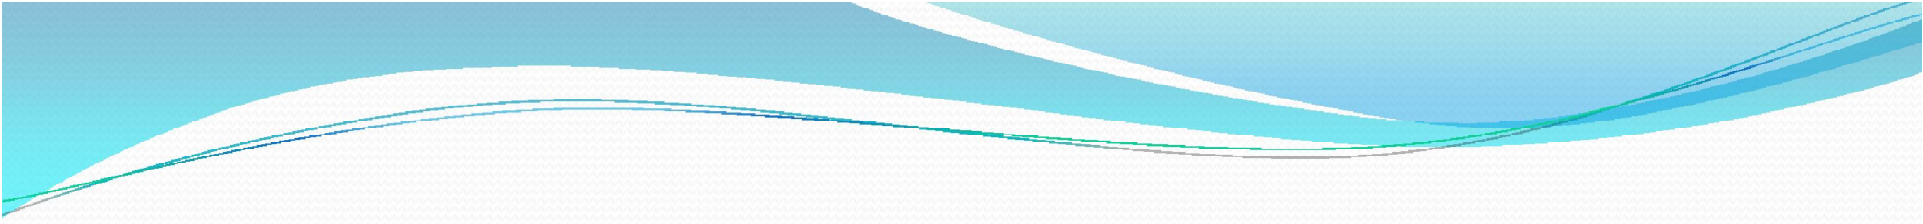

Groundwater research and appropriate rainwater management systems

- Learning Series
- Learning notes/ discussion papers

Documentation, campaign and media

- NYG members participated in knowledge management and media works
- Blog and news stories/features/articles
- Children/ students organizes campaigns

Thank you!
