

All India Federation of Self Employed Women's Association

SEWA BHARAT

INTRODUCTION TO SEWA

The Self- employed Women's Association (SEWA) is a labour union of poor self employed women workers of informal economy which was established by Smt. Ela.R.Bhatt in Gujarat in 1972.

It made rapid progress in organizing women of informal sector in Gujarat.

A demand for the creation of similar organizations started being voiced in other states too.

In 1980s Ela Ben along with her SEWA colleagues promoted independent SEWA organizations which worked on Gandhian philosophy and principles across the country.

Now it is present in 17 states with 1.9 million informal sector women workers.

SEWA BHARAT Programmes

- **Leadership Development**
- **Community Led Microfinance**
- **Social Security and Health**
- **Advocacy**
- **Livelihood promotion and protection**

SEWA Bharat Promoted 'for profit' Institutions

From 2005 till date , SEWA Bharat promoted 5 institutions for employment, income generation and allied services. These are 100% owned and managed by SEWA Union members.

SEWA Bharat gives support to these institutions for :

- Capacity building of staff**
- Salary support of some staff**
- Funding**
- Resource sharing**
- Legal consultancy**
- Liaising with funders, buyers**
- Marketing**

SEWA Bharat promoted 'for profit' Member Based Institutions

S.NO	Name of Entity	Type Activity	Format	Year of formation	No. of Shareholders

Solid Waste Management Model

By Sewa Bharat,
Munger

Mission Sunehra Kal

ITC-SEWA Bharat Project

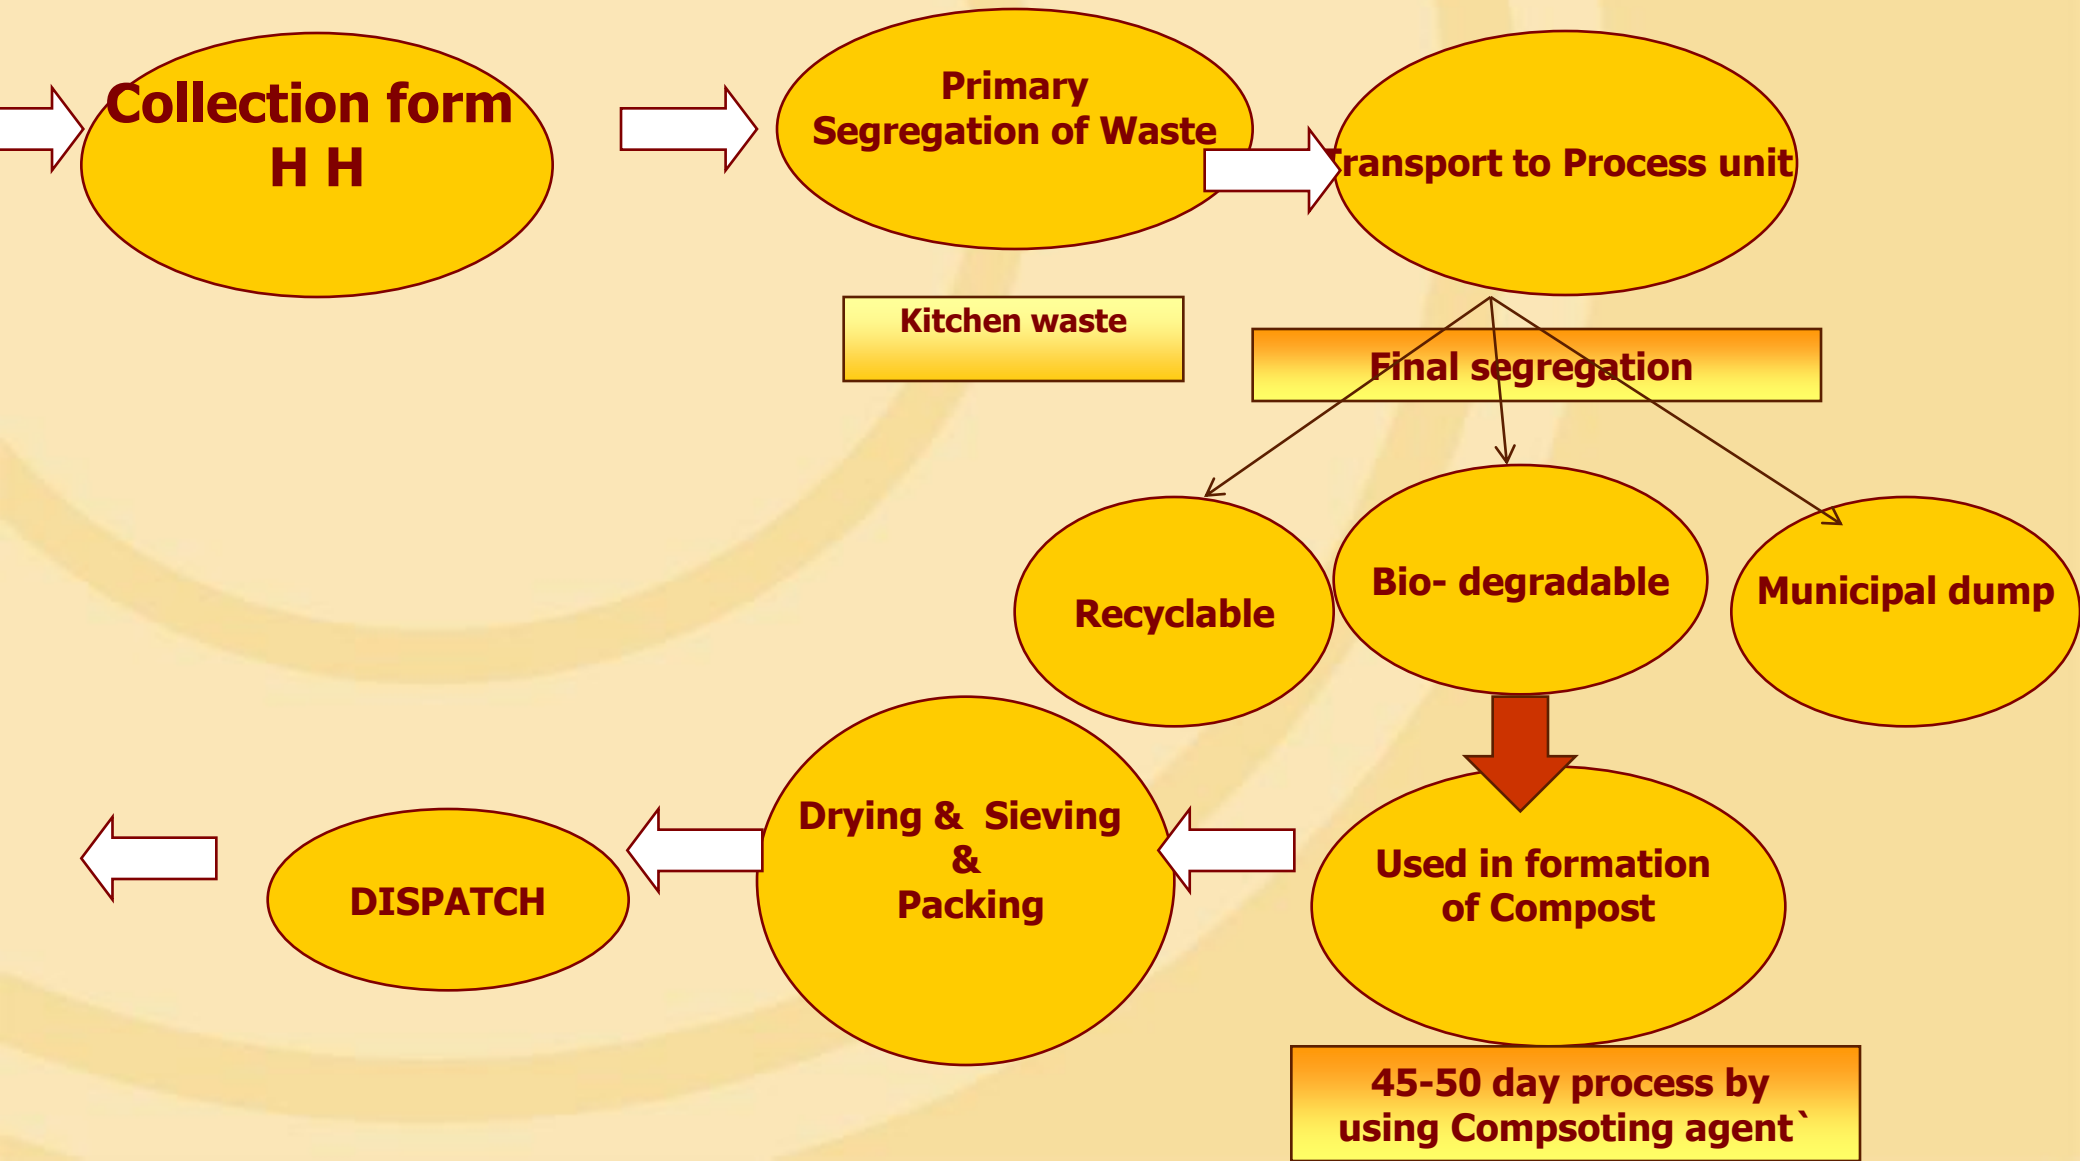

Project objective

- To develop a system of waste collection and disposal from door to door to processing site.
- Segregation of waste at HH level and converting biodegradable waste into organic manure.
- To sensitize community for healthy and greener environment.
- To improve the status of waste pickers.
- Formation and strengthening of 25 Mohalla Committees which will be look after the entire activity.

Implementation Model :

Unique Part of Solid Waste Management

- Segregation of Waste into 3 Parts
 - ✓ Bio Degradable Waste (BD) – 80- 85% of the total waste
 - ✓ Recyclable Waste (RC) – 5- 10% of the total waste
 - ✓ Municipal Dump (MD) – 10- 15% of the total waste

Unique Part of Solid Waste Management

- Segregation of Waste by Households
- Follow up through Mohalla Committee
- Monthly Payment of waste collector through the Mohalla Committee from the Revenue collection from Households

Mohalla committees

Mohhala committee

1	Madhopur	12	Ganganagar
2	Purabsarai	13	Laldarbaja
3	Gulzarpokhar	14	Swachh- Laldarbaja
4	Hazisujan	15	Dalhatta
5	Sherpur	16	Nitibagh
6	Nayagao	17	Raysar
7	Choukhandi	18	Churamba
8	Shyampur	19	Gayatri Nagar
9	Subhash nagar	20	Kela bari
10	Rampur bhikhari	21	Basant bihar
11	Refuji colony	22	Mogalbazar

Structure of Mohalla committee :

On 200 HH will have a mohhala committee. Every mohhala committee was named after the mohala.

The affairs of committee will managed by Executive committee.

Solution of Bio Degradable Waste

- Collection of Bio Degradable Waste
- Mixing dry leaf in 60:40 ratio
- Bed Preparation
- Add Bacterial Culture
- Turning of Bed at the regular interval of 10 days – 3 times and finally after 15 days
- 45- 50 days process
- Finally converted into manure

**We can re-use our 85%
and more waste**

Our Working Process

- Formation of Mohalla Committee
- Awareness of Mohalla Committee
- Appointment of waste collector by the Mohalla committee
- Awareness of Households
 - ✓ Audio Visual Awareness
 - ✓ Door to door visit by the team
 - ✓ Household Visit by the Mohalla Committee (if there is any problem)
 - ✓ All the decision taken by the Mohalla Committee

Our Working Process – to contd.

- Segregation of Waste by HH
- Treatment of the waste
- Payment of Waste collector

Existing Status of Waste Management

- Population : 9000
- Number of wards : 30
- Generation : 4.8 MT in Tonnes per day
- Composition

Biodegradable: 80%

Non- biodegradable waste: 20% only (out of that 5 to 10% is Recyclable)

Existing Status of source segregation and collection of waste

- Segregation percentage for entire town *(90% and above in 1 to 30 wards where we are working)*
- Number of wards where source-segregation is practiced: 30
- 80% Door to Door Collection efficiency

Community Composter

Composter capacity

Length	10	Fit
Width	4	Fit
Height	5	fit
Volume	200	Cubic fit
1 cubic fit	21.6	kg waste
Net capacity of composter	4320	

Promotion of home composting-

Coordination meeting with Municipal supervisor

- Get Written approval From Municipal Corporation

Public events : to promote sanitation

Door To Door meeting

Promotion of waste compost

community Sensitization activitites-

**Thank
You**
