

RESIDENTIAL TRAINING PROGRAMME

HEAT & HAZE

CLIMATE AND CLEAN AIR IMPERATIVES FOR CITIES

THE TRAINING TEAM

ANUMITA ROYCHOWDHURY

Executive Director, Research and Advocacy, CSE

Leads CSE's research, communication, and advocacy on sustainable urbanisation, encompassing clean air action, clean and low carbon mobility, and sustainable buildings and habitat. She has built the campaign on Right to Clean Air that has catalysed improvement in emissions standards for vehicles, replacement of diesel-based public transport vehicles with natural gas-based fleet in Delhi, curtailment of dirty fuels in industry in Delhi, and several policies on sustainable mobility, among others. She is a member of the Commission for Air Quality Management in National Capital Region and Adjoining Areas.

MITASHI SINGH

Programme Manager, Sustainable Habitat Programme, CSE

Is an urban planner and leads CSE's research on urban heat management and circularity for climate resilient cities. She has a working experience of more than 10 years on enabling sustainability in the built environment.

RAJNEESH SAREEN

Director, Sustainable Habitat Programme, CSE

He is an Urban and Environmental Planner and is leading the Programme's several research and advocacy initiatives on sustainable urbanization, climate vulnerabilities in urban centers, and low-impact development. He has a working experience of more than 25 years on sustainable built environment.

SUGEET GROVER

Programme Manager, Sustainable Habitat Programme, CSE

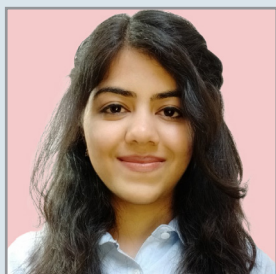

He is an architect and leads CSE's research on thermal comfort, energy and resource efficiency, and sustainable cooling. He has a working experience of more than 10 years on sustainable built environment.

NIMISH GUPTA

Deputy Programme Manager, Sustainable Habitat Programme, CSE

Urban heat expert, specializing in heat and climate risk mapping using geospatial tools and remote sensing. He has a working experience of around 10 years on sustainable built environment.

GARGI DWIVEDI

Senior Research Associate, Sustainable Habitat Programme, CSE

She is an architect and specializes in passive cooling, green building strategies, and microclimate simulations. She has a working experience of around 5 years on sustainable built environment.

SHUBHAM SRIVASTAVA

Shubham Srivastava, Programme officer, Clean Air & Sustainable Mobility, CSE

Expert in urban mobility, data analysis, sustainable transport planning and electric mobility policy ecosystems. Has over 5 years of experience in climate and transport research.

SAYANI SEN

Programme Officer, Sustainable Habitat Programme, CSE

Is an architect and environmental planner. She specializes in climate vulnerability assessments and circular economy and has a working experience of around 5 years on sustainable built environment.

MOUSHUMI MOHANTY

Senior Programme Manager, Clean Air and Sustainable Mobility Programme, CSE

An expert in hybrid and electric mobility with an experience in the economics of electric vehicle technology and policy combined with a deep understanding of the electric vehicle supply chain and its ecosystem.
