

STATE WORKSHOP

POWERING UTTAR PRADESH'S CLEAN ENERGY FUTURE

DATE: **12TH OCTOBER, 2026** | TIME: **09:30 AM TO 04:30 PM**

VENUE: **FAIRFIELD BY MARRIOTT, LUCKNOW**

BACKGROUND

India aims for 500 GW of non-fossil fuel capacity by 2030 and net-zero by 2070, with Renewable Purchase Obligation (RPO) as a key instrument driving this transition. As the regulatory landscape evolves, staying updated on compliance is more important than ever.

To support this, UPNEDA, in collaboration with CSE, is organizing a one-day knowledge cum experience sharing workshop covering the evolving RE policy landscape, peer learning from other states, success stories from obligated entities, and panel discussions with sector stakeholders on changing renewable energy landscape.

**REGISTER
HERE.
PARTICIPATION
ONLY ON
CONFIRMATION.**

KEY HIGHLIGHTS

- Overview of India's evolving RE policy landscape and its implications for Uttar Pradesh
- Emerging compliance frameworks: Renewable Consumption Obligation (RCO), Energy Storage Obligation (ESO) & Carbon Credit Trading Scheme (CCTS)
- Peer-learning on renewable energy compliances from other states
- Panel discussion with regulators, brokers, vendors & obligated entities
- RPO compliance success stories from leading obligated entities

WHO WILL ATTEND

- Officials from UPNEDA, UPERC, UPPCL and other State Departments
- Open Access & Captive Power Consumers, and DISCOM representatives
- Representatives from MNRE, BEE, sector experts and think tanks
