Key objectives of the Forum

• Knowledge sharing platform on SWM
• Training and capacity building on source segregation model
• Tracking progress made by cities in this work
• Participating cities will be pioneers, and will handhold other cities on technical, economic and social aspects of SWM
• Collate feedback and inputs from cities and provide policy relevant information to State and Central Govts.
• Documentation of best practices on forum website
Launched on 12 December, 2017

- 20 cities from 13 states joined the forum in December, 2017
- Cities pledge to join the cleanliness movement- segregate and adopt sustainable waste management practices
- First assessment of forum cities done on 7th June, 2018- cities get 5 leaves award based on their annual performance on cleanliness.
