

# SUSTAINABLE RURAL SANITATION

Learnings from South Asia and Africa

## A WORKSHOP FOR AFRICAN STAKEHOLDERS

March 26-29, 2019 INDIA

**What is sustainable sanitation?  
Is it merely about giving people  
access to toilets, so that our open  
defecation rates climb down?  
Or is it much more than that?**

Centre for Science and Environment (CSE), South Asia's leading environment-development think tanks, invites experts and functionaries working on rural sanitation in Africa to a brain-storming and knowledge building workshop in India.

Learn about the best practices in the South Asian region from some of the top experts in the area. Join us on exposure visit to witness sanitation models in the field. And share your experiences from Africa with practitioners from South Asia.

### OPEN TO

All stakeholders working on rural sanitation in Africa

### SPONSORSHIP

Full travel and accommodation support available to selected delegates

### LAST DATE FOR APPLYING

February 20, 2019

### TO APPLY

Send your CV to  
Sushmita Sengupta,  
sushmita@cseindia.org,  
+91-9899928837
