

AGENDA FOR SURVIVAL

The CSE-GEN student engagement programme

2025

Dear Student,

We are excited to confirm your participation in the CSE-GEN student engagement programme Agenda for Survival 2025!

This four-week programme will help you understand the most urgent climate challenges of our time and see how they connect to your own surroundings, campus and community. Through expert-led sessions, you will explore current climate issues, identify local impacts and learn how to study and interpret them. You will also be trained in the basics of environmental reporting so you can turn your observations into powerful stories.
