

# GREEN SCHOOLS FOR CLEAN AIR

Workshop for Green Schools Programme (GSP) Teachers

**March 23-25, 2026**

Anil Agarwal Environment Training Institute (AAETI),  
Nimli, Rajasthan

Participation is open only to nominated representatives from the GSP network.

*Understanding air pollution and exploring the role of schools in creating healthier environments for children*

CSE is organising a two-day workshop for school teachers focusing on the issue of air pollution and its impact on the health and well-being of school-going children. The workshop will provide an overview of air pollution sources and trends in Northern India, highlight its effects on children, and introduce practical approaches schools can adopt to improve air quality awareness and action. The programme will include expert-led sessions, discussions on emerging solutions such as electric mobility, interactive activities to identify pollution hotspots around school campuses, and opportunities for participants to share experiences and best practices.

## What You Will Gain from This Workshop

- A clearer understanding of air pollution, its sources, and current trends.
- Insights into how air pollution affects the health and daily lives of children.
- Introduction to resources and initiatives that schools can use to address air pollution.
- Exposure to sustainable practices that promote cleaner and healthier school environments.

## Nomination Procedure

GSP and its partner organisations will jointly shortlist participants for the workshop.

## Other Details

Nominated participants will be required to reach Delhi on March 23. Accommodation, meals, and local transport during the workshop will be arranged by GSP. Participants will depart on March 25 after the closing session and lunch.

Certificates will be provided to all participants upon successful completion of the workshop.
