A CSE ROUNDTABLE

CLEAN ENERGY MANUFACTURING IN INDIA: THE WAY AHEAD

A focus on the solar manufacturing ecosystem

November 12, 2026

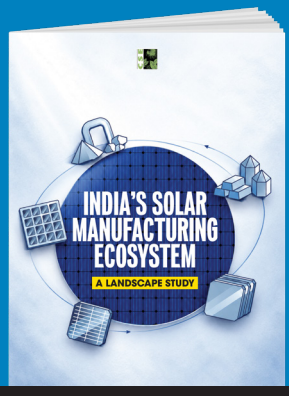

09:30 AM to 03:00 PM

Maple room, India Habitat Centre, New Delhi

Join CSE for a closed-door roundtable convening relevant Ministries, research institutions, industry associations, manufacturers, and financiers to discuss India's position in global clean energy supply chains, and the opportunities to strengthen domestic manufacturing. With solar manufacturing as its primary focus, the discussion will examine India's manufacturing capabilities and competitiveness, production costs, the policy landscape and supply chain dependencies.

BY INVITATION ONLY

We will also release our report on **'India's solar manufacturing ecosystem - A Landscape Study'.**
