

## RESIDENTIAL TRAINING

# SOCIAL IMPACT ASSESSMENT AND LAND ACQUISITION

**Date: December 9-12, 2025**

**Venue: Anil Agarwal Environment Training Institute (AAETI), Neemli, Rajasthan**

As India races ahead on its development journey, land has become one of the most sought after and contentious resources. Land acquisition for projects, displacement of people who have lived on the acquired land, their rehabilitation and resettlement – these are issues that governments are constantly forced to grapple with. To reduce conflicts and build trust, communities must be given clear information about project impacts and fair compensation for their land. This is where **Social Impact Assessment (SIA)** becomes a game-changer.

SIA is more than a checklist – it is a process of analysing, monitoring and managing the social and cultural consequences of projects. It ensures that decision-makers, regulators and stakeholders understand the social and economic footprints of development. For it to work, active involvement of all stakeholders is essential. Equally critical is a strong grasp of the **RFCTLARR Act, 2013** and its provisions for rehabilitation and resettlement.

To strengthen capacities in this field, Centre for Science and Environment (CSE) is conducting a four-day **residential training programme**. The course will take participants through the complete SIA and R&R process, and will build a cadre of professionals equipped to handle SIA reporting and land acquisition with skill, sensitivity and fairness.

**Deadline  
for receiving  
registrations:  
December 4,  
2025**

**CERTIFICATES WILL BE  
AWARDED TO PARTICIPANTS  
ON COMPLETION OF THE  
PROGRAMME.**

## COURSE FEE

(Includes training fees, accommodation, food and travel from/to Delhi and training centre)

**Single occupancy: ₹33,827**

**Double occupancy: ₹31,307**

Enjoy an additional 10% discount for registrations completed by the deadline. Groups of 3 or more participants from the same organization are also eligible for an extra 5% discount.

The above fees are inclusive of GST.

Sponsored seats are available for selected government officials (academicians not included).

## WHAT THE PROGRAMME OFFERS

**SIA methodology:** Tools and techniques for designing and conducting Social Impact Assessments.

**Baseline data:** Identifying data needs, methods of collection, collation, and interpretation.

**Acts and policies:** Key provisions of the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013, challenges in land acquisition, and preparation of acquisition plans.

**Public consultation:** Identifying affected communities, effective modes of engagement, and the stages where consultation is critical.

**Rehabilitation and resettlement planning:** Conducting asset evaluations, preparing entitlement matrices, and designing R&R plans.

**Reporting:** Developing clear, comprehensive, and actionable SIA reports.

## WHO CAN ATTEND?

- SIA practitioners and consultants
- government officials from state revenue departments, municipalities
- district collectors, mining department functionaries
- development corporations and industries
- academicians, students and researchers
- civil society groups, NGOs, advocates; and anyone else interested in the subject.
