

## CERTIFICATE COURSE ON

# E-WASTE MANAGEMENT IN INDIA

**COURSE DATE:** 28th June 2021- 6th July 2021 | **LAST DATE TO APPLY:** 25th June, 2021

**COURSE DURATION:** One week (10 hours) | **COURSE FEES:** INR 2,500/- per participant

**COURSE TYPE:** Online Course (Self-Paced) | **LEARNING PLATFORM:** Zoom and Moodle

In 2019, the world generated a striking 53.6 million metric tons of E-waste, Asian continent generated 24.9 MT, largest in the world, of which India generated 3.2 MT, and is the third largest producer of E-waste after China and U.S.A. The per capita generation of E-waste in India stands at 2.4 Kg. Despite government's initiatives, 90 per cent of this waste is handled and management by the informal sector. It is the need of the hour to understand and act how to sustainably manage e-waste. Accurate data on e-waste generation, collection and disposal are integral to how a country formulates and evolves its policies and practices on waste management.

The Centre for Science and Environment (CSE) has been working on policy and advocacy for a sustainable E- waste management. It recognizes the need to adopt resource-efficient waste management regimes, based on which it has conceptualized one-week certificate course on 'E- Waste Management in India'. The objective of the programme is to provide a better understanding of the key issues of e- waste management, legal aspects and legislative tools for effective management of e-waste while also focusing on how shifting to responsible purchase and consumption patterns can strengthen and foster the proposed concepts of 'Circular Economy' and 'Resource Efficiency'.

The mode of training would be online (Self-Paced) with a proper mix of interactive sessions with subject matter experts on E-waste and its management. The course provides a flexibility of on demand literature, virtual presentations and case studies. Assessment exercises and group discussion on the modules is provided for assessment and engagement of the participants.

### WHO CAN JOIN

Waste management practitioners, officials from central and state urban departments and municipalities, urban and town planners, academicians, students, and NGO representatives.

**FOR FURTHER DETAILS, PLEASE CONTACT THE COURSE COORDINATOR**
