

ONLINE TRAINING ON

# UNDERSTANDING ENVIRONMENTAL LAWS FOR BETTER ENVIRONMENTAL MANAGEMENT

**Course date:** August 24-30, 2020  
**Last date to apply:** August 10, 2020

**COURSE FEES: INR 2000**

India has a comprehensive system of regulations to protect its natural environment and the health of its people. From the enactment of Water Act in 1974, a number of laws and regulations have been put into force in this regard. However, the intended purposes of these laws are far from being fulfilled due to various reasons. One of the issues which stems out is a holistic understanding of the different laws and how they should be looked into in a concerted manner for better environmental management.

Considering the need to fill the gaps, Centre for Science and Environment, is organizing a one week online training course on "Understanding Environmental law for improving environmental management".

## LEARNING FROM THE PROGRAMME

- Better understanding of environmental governance structure of the country, major institution, and their implementation statistics.
- Increased understanding of the obligations of industry and individuals under various environmental laws and regulations and how to meet these obligations.
- Understanding the impacts of violations and noncompliance.
- Role of National Green Tribunal (NGT), environmental courts and public interest litigation (PIL).
- Understanding of international treaties and agreements Government of India subscribes to the impact of non-compliance with such agreements on business.
- Understanding that environmental compliance is not a financial burden but a clear business opportunity.
