

SCHOOL OF WATER AND WASTE

**AAETI****Blended Online and Residential Training Programme on**

# Preparation of Shit Flow Diagram (SFD)

**Part A (Online): 09 -19 April, 2021 Part B (Residential Training): 27 – 30 April, 2021****Venue: Anil Agarwal Environment Training Institute Language: English**

## BACKGROUND

Mapping excreta of a city is increasingly being used to analyse the sanitation in urban areas. An excreta flow diagram (also often described as shit flow diagram), can help to achieve this by offering a new and innovative way to engage sanitation experts, political leaders and civil society in coordinated discussions about excreta management in their city

This training focuses on providing practical and hands-on experience on preparation of SFDs.

## AIM

To sensitise and equip practitioners in mapping excreta flows using the Shit Flow Diagram (SFD) Tool, and using it for preparing city-wide sanitation strategies

## LEARNING OUTCOMES

- Understand SFDs (graphic and report) and need for a standardized methodology
- Understand the available tool including their context, range and how to use them
- Use the developed tools to go through a worked example
- Understand the support available to enable the development of SFD for their city

## TARGET PARTICIPANTS

- Alumni of the online courses (refer CSE website) organized by CSE SWW in 2020-21
- Managers, regulators, officials from municipalities / development authorities, representatives from PMU/ PSU and other individual practitioners/consultants, researchers, academia with prior basic knowledge.
