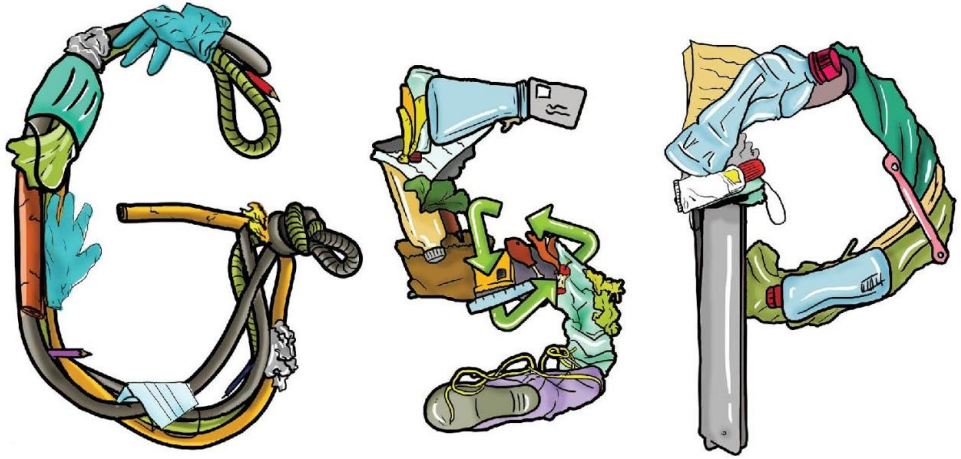
Green Schools Programme
cordially invites you to



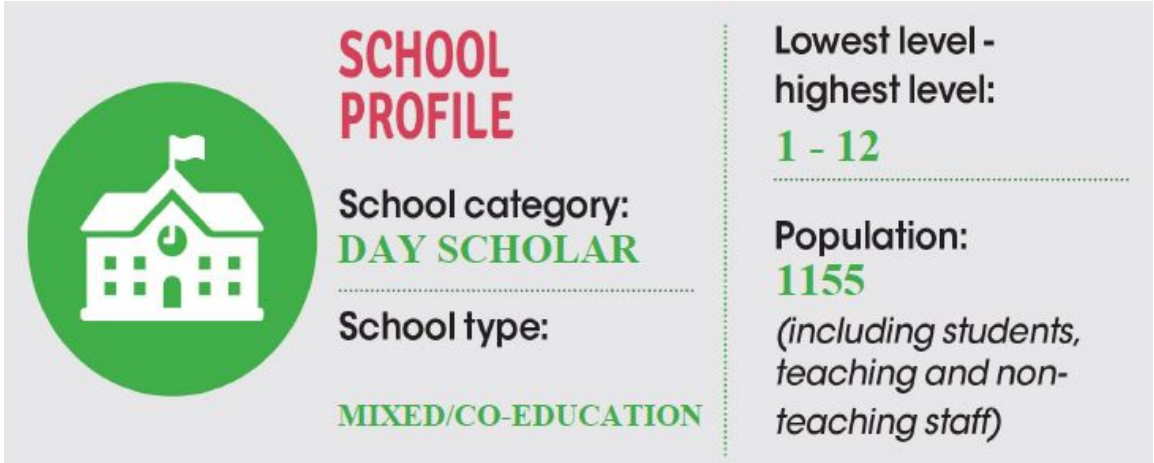
WASTE TRANSFORMERS 2020-21

Forum of schools that segregate

Mount Litera Zee School
Jamshedpur, Jharkhand

LAND WARRIORS

Year of joining GSP: 2015



Why was the action plan needed?

All streams of waste are treated in our school. For eg: ***42 kg*** *of wet waste generates around* ***15+ kg of compost****; dustbins are made out of paper waste; e-waste is given to authorised dealer; sanitary napkins are given to JUSCO for proper disposal.* ***But we face a huge problem:***

1. Approach road to school with highway service facilities

2. Landfills with waste (approx **20-25 kgs** - seasonal) generated through the existing operations

3. Outside the scope of municipality as no ownership exists

Action Plan

- Reach out to the existing community (hotels) and understand the current waste generation
- Waste Management Plan: Communicated with 3R’s, track schedules and responsibility leads
- Waste segregation and scheduled facilities for removal from strategic locations
- Nudge the hotel to segregate and reduce waste disposal by **at least 50 per cent in Year 1**

Indicators to assess action plan

- Continuous monthly trainings for nearby slum dwellers and the hotel staff, as per the developmental plan
- Scope of COVID-19 precautions and protocol followed
- Time interventions, check points, track schedules and monthly reviews
- Analysis and Appreciation: Contributors to Green Bharat (Yearly)
