GSP Audit@Home: Scorecard & Learnings

• **Title:** Expert Eco-Warrior

  YOUR FINAL SCORE IS 53

  ECO WARRIORS
  (The lower the score, the better your practices are!)

  **Master** (38 - 50 Points)
  Your practices are environmentally sustainable to a great extent! Continue to use resources mindfully while also trying to become even 'greener'.

  **Expert** (51 - 75 Points)
  A lot of your practices are environmentally sustainable! Reduce your carbon footprint further by recycling more and saving energy.

  **Apprentice** (76 - 95 Points)
  You have begun assessing your practices and that's a great first step! Now you need to start improving them actively by adopting better measures.

  **Beginner** (96 - 117 Points)
  You need to start observing your everyday practices to find out how you can improve them. Ensure that you use resources only as much as required and dispose of waste properly.

• The **GSP scorecard** helped me understand how to use resources efficiently, such as water, energy and even waste!
GSP Audit@Home: Practices

**Energy efficiency**
- Monitoring electricity bills before and after lockdown: Amount increased by 30-40%
- Transition to energy-efficient LED lights

**Waste management**
- 100 per cent horticulture and kitchen waste are processed using a compost tower or a *khamba*.
- The compost is then used to grow plants.

*Study nature, love nature, stay close to nature. It will never fail you.*
-- Frank Lloyd Wright
