- Disposal: Centralized Composting Plant

## Existing Legislations on Waste Management

- Does the city have by laws as per the SWM Rules, 2016 Yes
- Status of compliance and monitoring Boards have been placed and regular IEC activities conducted
- Any penalty provision for littering? Yes
- Any state policy to ban plastic? Yes
- Any other important initiative/practices adopted by city to push for segregation We have signed an MoU with ITC and Hasirudala for the promotion for the same.

# Has the ULB adopted **Decentralised Waste Management?**

- If yes, enlist the method adopted for decentralised waste management
- ✓ **Composting**
- The challenges ULB faces in ensuring treatment at source?
- Lack of public awareness

## Major gaps and challenges of source segregation

- Lack of public participation.
- Initial issues with transportation of segregated waste.
- When mixed waste is refused, littering of the same.
- Providing two colour coded dustbins.
- Bulk waste generators unwilling to take their responsibility.
