C-GINS
Compendium of Green Infrastructure Network systems
https://www.cseindia.org/c-gins/home
**What is C-GINS?**

C-GINS (Compendium of green infrastructure network systems) is the repository for best practices, projects and approaches in support of Green Infrastructure (GI) and Water Sensitive Urban Design and planning (WSUDP) principles. C-GINS is an open platform where the latest thinking on natural capital, ecosystem services and nature-based solutions is brought together.

It provides a knowledge marketplace, which showcases case examples of GI and WSUDP to simplify how we share, obtain and create knowledge to better manage our urban environment. Each of the case examples provides an overview of the intervention, timeline, authorities/stakeholders involved in the project, outcomes and learnings tips for user education.

The preference for sustainable technologies is mainly due to CSE’s continuous motivation towards usage of sustainable and environmentally harmonious interventions.

You may visit C-GINS at
[https://www.cseindia.org/c-gins/home](https://www.cseindia.org/c-gins/home)

**How to use C-GINS**

With an objective of disseminating knowledge and good practices for sustainable water management, the particular case study can be explored on C-GINS on the basis of:

- Geographic location with the interactive map
- Scale of intervention
- Water management objectives

Further you can discover in detail with the help of filters provided. In case you are confused between the meanings of the terms use the glossary, in case you are not, you can move on to search.
Explore with Map

Explore by Objectives

Water Conservation
Pollution Abatement
Urban Flood Mitigation

73 Case Studies
36 Global Case Studies
37 Indian Case Studies

What’s in store for you?
Check out our one stop resource library for CSE’s practitioner’s guide, latest publications, recommended readings and so much more.

Explore Videos, concepts, inspiring success stories, Manuals for better understanding of implementation of such systems.

Stay Updated with all the latest case studies, upcoming online and residential training programmes and latest related blogs.

Contribute to our compendium by sharing your knowledge on Green Infrastructure OR an implemented case study.

This initiative is supported by the University of the West of England, Bristol and International Water Security Network
