This interdisciplinary summer certificate course allows participants to understand and critically evaluate issues that lie at the interface of environment and development; poverty; democracy, equity and justice.

**Learning mode**
Classroom lectures, case study presentation, discussions, and lot more. Interrogate policy makers and activists. Hear from leading academics, policy pundits, lawyers, grassroots activists and members of CSE’s research and advocacy teams. A week-long field trip to the Himalayas to explore community-led eco-restoration efforts in rural India. Several field trips around Delhi.

**Course assignment**
Report, write, edit, design and learn hands-on to produce your own magazine.

**Course modules**
- State of India’s environment: an overview
- The environmental movement in India
- Poverty & the biomass economy
- Ecological rights & natural resource management
- Agriculture & food security
- Conservation & conflict: the wildlife management debate
- Urban growth challenges: water & waste management, air pollution & mobility
- Sustainable industrialisation & public health concerns
- Global environmental governance: focus on climate change
- A week-long field trip to the Himalayas and several within Delhi

**Eligibility**
A total of 25 participants will be selected (young professionals and college students from any stream).

**Course fee**
₹8,000. This includes the training fees, local and outstation field excursions, reading materials, together with lunch and refreshments during training days.

**Fellowships**
Select candidates awarded fellowships to support their stay in Delhi.

**Accommodation**
We will arrange hostel accommodation for outstation participants for a nominal charge of ₹12,000 (stay & food for one month).
