

## MENU FOR THE LAST DAY

ISSUES	AGREEMENTS	BATTLING ON	OVERALL STATUS	EXPECTATIONS
<b>Political issues</b>		~Long Term Commitment ~Should we agree to arrest global temperature increase to 2 degrees or 1.5 degree ~When to peak emissions	Deliberations on	Everything but a consensus
<b>Adaptation</b>	~Established a roadmap for next stages & future meetings (crucial re: Durban)	~Flexibility & compromise ~Integrate special focus requested by LDCs (facilitating establishing adaptation committee, access to financial resources in new fund, working within framework of reactions associated to loss & damage, progress made by working group on adaptation in recent months) ~Sustainable, working framework for adaptation with financial & tech instruments	Has made a small step forward; large one for an agreement sought in Cancun	Building blocks for Durban CoP17
<b>Finance</b>	Four options Have narrowed gaps, convergence to establish the fund	Which one?	No consensus yet	One of the four options
<b>Mitigation / LCA/ KP</b>	None	Everything	Stalemate	Nothing
<b>REDD</b>		~Financing of mechanisms, scope of REDD mechanism ~Connection between REDD at Subnational & national levels ~Instruments & mechanisms for monitoring safeguards for mechanisms	"Close to definitive agreement"	"Dialogue to wrap up text to reflect perspectives of the majority"
<b>MRV</b>	"ICA proposals from developing world may prove helpful"	Transparency: -Actions implemented -Process -How not to impose difficulties on smaller states, -How to ensure protecting sovereignty Frequency	Stalemate	"Hope to move this part of the text forward in positive way"
<b>Technology transfer</b>	Most of the aspects sans IPR issues	Need to increase tech activities as part of convention Establishing a mechanism with exec committee & resources centre & network	Text is on the table but need more progress	Continue work in 2011
<b>Carbon capture and sequestration</b>			Views not yet ready for concrete proposal	Nothing
<b>Market &amp; non-market mechanisms</b>			No Progress	Nothing
<b>Options for sectoral approaches (including agriculture)</b>			No progress	Nothing
<b>AWG KP</b>	Some progress	~Key issues still remain open ~Limited scope for advancing	CRP4 has been revised and is	

		further technical work until requested political guidance is given	available
