

Do you know what Shit Flow Diagrams are?

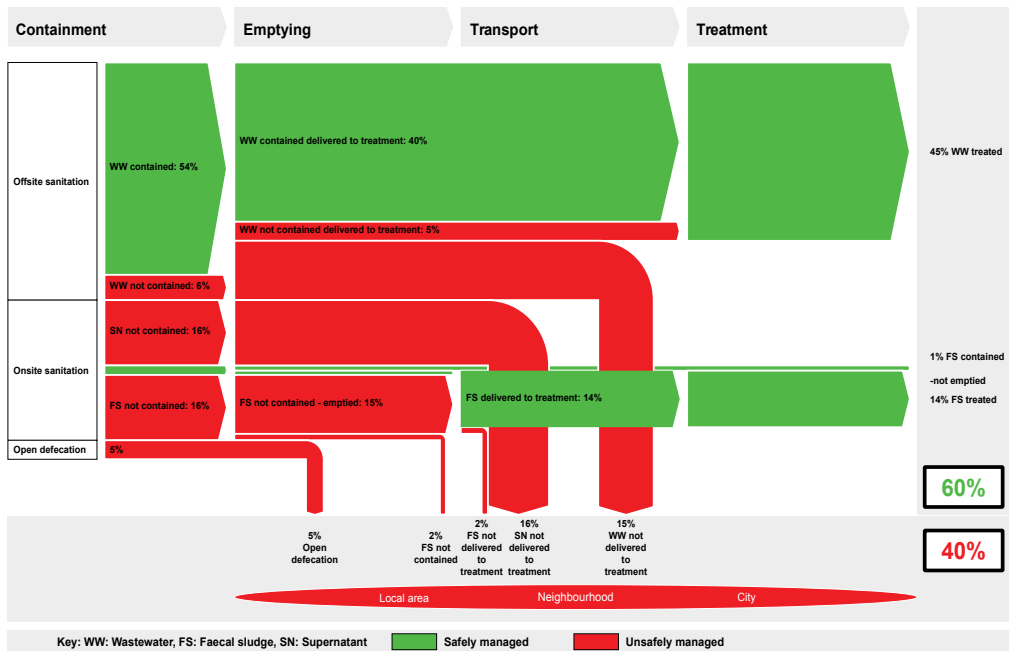

A Shit Flow Diagram (SFD) is an easy-to-understand advocacy and decision-support tool that summarizes and presents what happens to excreta in urban areas in a concise report. An SFD goes beyond this visual representation to also include an assessment of the delivery of sanitation services in the town or city and a record of data sources.

Training on Shit Flow Diagram (SFD) preparation will be conducted by Centre for Science and Environment (CSE), New Delhi. You will get hands-on experience of using newly developed graphic generator to develop your own SFD.

Tiruchirappalli, Tamil Nadu, India
 Version: Reviewed
 SFD Level: 3 - Comprehensive SFD
 Date prepared: 26 Sep 2015
 Prepared by: CSE

Produced with support from the SFD Promotion Initiative with funding from the Bill & Melinda Gates Foundation. The SFD Promotion Initiative recommends that this graphic is read in conjunction with the city's SFD Report which is available at: sfd.susana.org

A full day training

Date: 19th February, 2018
Time: 9.30 am to 5.30 pm
Venue: Clube Tennis de Gaspar Dias, Near Bhandokar Samadhi Marg, Miramar, Goa.

Registration: <http://www.susana.org/en/registration-india-chapter-meeting>

Visit us on www.sfd.susana.org

*Bring your laptop for hands on experience of the tool

SFD Promotion Initiative

About CSE

The Centre for Science and Environment (CSE) is an independent public interest research organization, established in 1980, that aims to promote an informed public opinion in favour of environmental sustainability and sustainable development. CSE's work is widely acknowledged for its intellectual leadership and the institution has grown into one of India's most influential and highly vocal environmental NGO.

CSE has been working on policy and implementation regarding faecal sludge and septage management at the national and global levels. In 2017, the centre published a practitioner's guide on Septage Management to assist practitioners involved in the sanitation sector as well as urban designing and planning.

CSE received prestigious international awards Stockholm Water Prize in the year 2005 and the Prince Albert II of Monaco Foundation Water Award in the year 2008. CSE is actively working in India, South Asia and Africa. As a partner of SFD Promotion Initiative CSE has prepared 27 SFDs for different agro-climatic regions (cities) of India.

We are ready to help you!

SFD helpdesk

The SFD Helpdesk team is a pool of experts working with the partner organizations of the SFD Promotion Initiative. Together we developed the approach and tested it in collaboration with local stakeholders in cities and towns in India. So, if you are keen to develop SFDs for your cities or have any question regarding SFDs kindly visit www.sfd.susana.org or write to us at sfdhelpdesk@cseindia.org
