

CSE has been working on policy and implementation regarding waste management at the national and global levels. In 2016, the Centre published *Not in My Backyard*, a seminal report on the existing status of waste management in the country.

- Status of waste management in India
- Major provisions of the new Waste Management Rules, 2016 and the status of their implementation
- Roles and responsibilities of different stakeholders
- Inventorisation and extended producer responsibility
- Decentralised waste management
- Using information, education and communication for behaviour change
- Site visits to learn about best practices

Waste management practitioners, officials from central and state urban departments and municipalities, urban and town planners, village panchayat officials and members, academicians, students, and NGO representatives

Classroom lectures, case studies, class exercises, discussions and field visits

25,500/- INR
